

## What do our Customers say

University of Glasgow is proud to have worked with Excel Vending for over 20 years. Their commitment to customer service and being market leaders makes them stand out as the obvious partner of choice.

University of Glasgow

Excel Vending's approach helps us deliver our objectives. A recent example is where we installed a Deposit Return Machine in our facility to help increase our sustainability and reduce waste on campus. Initiatives such as this are why we know that Excel's approach is unique, it is a genuine partnership approach to working with their customers.

Excel Vending has exceeded our expectations as a first rate partner in the provision of vending in all our sport and leisure facilities within East Lothian. As we have a number of sites, the requirements for vending can vary, this is never a problem for any of the staff employed by Excel, who deserve a great deal of recognition with regards to customer care in readily adapting the goods supplied to meet our business and customer needs.

It can be difficult to find companies who know the real value of working in a partnership with their customers and not just become a product provider. Jane MacDonald can be extremely proud that she and her staff have got this balance just right!

Your team who were in today were amazing – thank you so much for the support in moving the vending machines around!

Just a note of thanks for arranging at such short notice the vending machines for the new area. This was dealt with extremely quickly and allowed our employees to start using this facility this morning. Your help and your teams support is very much appreciated.

Carron Bathrooms have been dealing with Excel Vending for many years. I have always found the quality of service second to none

The machines are filled and cleaned on the days arranged and Excel staff are always very pleasant. I personally have recommended Excel Vending because of Carron Bathrooms satisfaction with the service.

Carron Bathrooms is looking forward to doing business with Excel Vending for many years to come.

Just a note on behalf of Julie, myself and all at Holland & Sherry to say what a pleasure it is to have Excel Vending as our vending/ water supplier. Holland & Sherry has grown over the years to a staff now in Peebles of 120, who are all impacted by the service from Excel Vending.

I personally have been dealing with Excel for more years than I care to remember, I have built up great relationships with everyone I have had the pleasure of meeting with Mark, Carol, Pat and Darren over the years and they are more like friends than suppliers. The staff I have spoken to on the phone; not once have we had an issue and that speaks volumes for Excel as a company.

Like every company Holland & Sherry strives to get the best deal possible but that is not always down to the price, service is just as key so when vending companies come calling, we have no hesitation in letting them know about the quality of service we currently get from Excel Vending.

I would have pleasure in recommending Excel-Vending to anyone of our suppliers if they were to be looking for a vending supplier

HOLLAND & SHERRY
